Michel de Nostredame (Latin: Nostradamus) was a sixteenth century medical doctor, astrologer, and author born in Saint-Remy-de-Provence in southern France. His Jewish family become Catholic around 1455 when his grandfather, Guy Gassonet, converted to Catholicism and changed his name to Pierre Nostredame. Nostradamus studied medicine at an early age and authored at least two medical books. One was a loose translation into French of some of the writings of Galen of Pergamum, a 2nd century Greek physician and philosopher.¹ The other was a medical cookbook with recipes for preparing apothecary cures and cosmetics. Nostradamus is best known, however, for his astrological and prophetic books which were popular in his own day and continue to be for over 400 years. Nostradamus was well versed in the arts of astronomy, the kabbalah, astrology, alchemy, magic, mathematics and medicine. Some critics of Christianity hold up Nostradamus as an example of someone who made predictions on the level with those in the Bible, thus canceling the claim of supernatural uniqueness made for biblical prophecy.
