Ontario High School Laboratory Manual in Chemistry (Classic Reprint) (Paperback)

By Unknown Author

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Ontario High School Laboratory Manual in Chemistry As this Manual is intended for use in secondary schools of all grades, it has been thought best to leave to individual teachers the selection of the experiments which the class shall be required to do and those which the teacher himself will use for demonstration purposes. The equipment of the schools, the experience of the teachers, and the exigencies of the timetable, are so variable that it seems unwise to prescribe a division which, suitable in some cases, would be quite unsatisfactory in others. Most of the experiments should always be done by the pupils, some may be done by either pupils or teacher, and a few probably would, for various reasons, be better performed by the teacher. These last have been retained in the Text-book, the others are in the Manual. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
