(Regular Price \$5.99)* * * Farming - Becoming Self Sufficient Through Mini Farming For Beginners Today s world is one that has become awakened to the changing nature of food cultivation and supply. Gone are the days when the fruits and vegetables that made it to our plates were sources of vitamins and minerals; today s fresh produces are instead, results of experiments of genetically engineered fresh produce. The food that we rely on as sustenance for our development, is actually giving us little or no nutritional benefit. In order to combat this unhealthy practice of food consumption, people around the world have slowly begun relying on themselves as skilled farmers. The process of growing and cultivating one s own food has been a part of history; today we are learning exactly how useful rearing your own crop and meat was. Setting up own mini farm is a process that may take up time and effort, but reaps huge rewards in the long run. By...
