Date :2008-6-1. With the rapid development of computer technology. the traditional accounting work is gradually to the development of electronic data processing systems. people use the computer's memory function. value calculations and logic functions. as well as large and advanced database. instead of the basic accounting manual. As computer processing speed. high precision. providing comprehensive information. thus greatly improving the quality of accounting has changed the face of accounting for personnel involved in the management accounting provides more space. At present. many rural areas of computerized accounting officer is the last accounting. treasury and other short-term training came through. they use the computer processing operations in the course of many problems. Many people tend to use financial software in addition to power. the knowledge of computer hardware and software is poorly understood. if the computer fails or is not usual to see the interface. while the helpless. Shihai often in the wrong machine operation. some operations once the error. may make their work a long time down the drain. the system data loss. but also cause serious system crash. Therefore. all aspects of computerized accounting requirements in rural areas to improve their own quality of accounting personnel to update the knowledge structure. not only to master the basic knowledge of accounting. financial operation of the software to use. you must also master of computer knowledge. This requires all levels of government and business departments to increase the rural areas accounting training. and cultivating human resources in rural areas of accounting. computerized accounting work in rural areas to meet the requirements. Contents: The first chapter the basic concepts of accounting computerization of rural...
